This +/-512.96 Acre Surveyed Parcel of Land will be Offered in its' Entirety  
as a Single +/-512.96 Acre Parcel of Contiguous Pasture/Grassland.

**[www.suttonauction.com](http://www.suttonauction.com)**

**We will offer the following real property at auction “On Site” at the land located ON THE East Side of Altamont, SD The NW Corner of the Land Located at the Jct. of SD Hwy #15 (476th Ave.& 175th St./Deuel Co. Hwy. #309); from Clear Lake, SD (Jct. Hwy. #15 & 181st St.) - approx. 6 miles north on SD Hwy. #15 to 175th St.; or from Watertown, SD (Exit #177 on I-29) – approx. 11 ½ miles east on Hwy. #212 to Tunerville, then 3 miles south on SD Hwy. #15 (476th Ave.) to 175th St. – the NW Corner of the Farm.**

**● AUCTIONEER’S NOTE: This auction presents the rare opportunity to purchase a large contiguous parcel of East River, SD Grassland Pasture. This land is very well located lying adjacent to SD Hwy. #15 and conveniently located to Clear Lake, SD, Altamont, SD, the Tunerville Corner on Hwy. #212, Watertown, SD; and the Western MN Counties of Lac Qui Parle, Yellow Medicine & Lincoln Counties and Other Area Communities and Points of Interest. This parcel of land has been owned by the Fromm Family for many decades and now, due to the multi-fractioned ownership of this land by the Fromm children, it is being offered for sale at public auction, presenting a “once in a lifetime opportunity” to purchase this land. If you are in the market for Deuel County, SD Pasture & Grassland, then make plans to inspect these farms and be in attendance at this Auction! With Carrying Rates of 3 to 5 acres per cow/calf pair, this property could be an excellent location to place 125 to 150 pairs. SPECIAL NOTE – This Land is Available for the Use of the Buyer for the 2025 Grazing Season, with immediate possession on sale day!**

This is an excellent parcel of East River SD pasture/hayland, that is especially well suited for the cow-calf producer. This parcel appears to have a combination of native and tame grass, with water provided by a combination of stock dams/dugouts, ponds and seasonal water ways. This land is all being utilized as pasture/grassland, and appears to include a mixture of native and tame grass pasture. Essentially this land is a parcel of permanent pasture, as all of this land is under a combination of both US Fish and Wildlife Perpetual Wetland and Grassland Easements, thus under the terms of the easements - unrestricted grazing is allowed at any time and haying is allowed after July 15th in accordance with the terms of the respective easements. The general topography of this land is gently rolling to hilly. According to information obtained from Surety Agri Data, Inc., this farm as a whole has a soil index of 39.2. Livestock water in the pasture is provided by a combination of stock dams/dugouts, ponds and seasonal water ways. According to the Brookings-Deuel RWS, rural water lines are located bordering the West Side of the property with lines located on the East Side of Hwy. #15 & on the North Side of 175th St.; additionally, B-D RW has a pressure reducing valve system located in the NW sector of the property.

**Heirs of Howard & Sandra Fromm dba Fromm Property Holdings, LLLP**

Due to the size of this property and the fact that this parcel is located within one contiguous tract and all within the same section, grazing capacities could potentially be optimized by the implementation and installation of interior fencing and perhaps some strategically located rural water pasture taps, in order to develop rotational grazing on the property. The 2024 RE Taxes payable in 2025 on this property on this property in its' entirety are \$3,372.58.

The U.S. Fish and Wildlife Service (Service) has purchased and owns perpetual rights which restrict or prohibit the right to drain, burn, level, and fill any wetland basins depicted on this map. This map represents the Service's effort to depict the approximate location, size and shape of all protected wetlands based on information and maps available at the time this map was prepared. However, wetlands are hydrologically dynamic systems, with expanding and contracting water levels. This map is not meant to depict water levels in the wetland in any given year. The Service reserves the right to revise this map, provided the mapped acreage remains consistent with the Easement's Summary Acres.

The U.S. Fish and Wildlife Service (Service) has purchased and owns perpetual rights which restrict or prohibit the right to drain, burn, level, and fill any wetland on the ownership represented by this map. This map represents the Service's effort to depict the approximate location of all protected wetlands based on information and maps available at the time this map was prepared. However, wetlands are hydrologically dynamic systems, with regularly expanding and contracting water levels. This map is not meant to depict water levels in the wetland in any given year. The Service reserves the right to correct this map provided the mapped acreage remains consistent with the Easement's Summary Acres.
