This auction awards the opportunity to purchase land with a mixture of productive cropland as well grassland & is inclusive of land which may offer areas for hunting & wildlife habitat. According to FSA information this parcel is indicated to have 130.10 acres of cropland which is overstated as according to the current tenant only +/-97 acres are currently under cultivation. FSA information does not indicate any current base acres or PLC yields presently. A positive aspect of this land is that this land is NOT subject to any USFW wetland or grassland easements. According to county assessors information this land has an overall soil rating of a .756. Comparatively, information obtained from Surety Agridata Inc., indicates that this land has a productivity index of a 78.3 & is comprised of over 85% class II soils. The 2025 RE taxes payable in 2026 on this land are \$2,048.20. If you are in the market for a productive parcel of land to add to an existing farming operation or investment, make plans to inspect this property & be in attendance at this auction!
